In the Communist Party at Seneca Falls, New York, [redacted] is the only person known to him who is a member of the party. He stated that he collected no material for the party. Reference is made to your memorandum dated July 8, 1953, your reference NY 100-100000, entitled as above, and to my memorandum dated July 11, 1953.

It has been ascertained that the subject is been on extended maternity leave since October 1, 1952. The Army has advised that although the subject is not to assume her former position as chief of the Army's Quarter Master's Marketing Center in New York City, she will be presented with a letter of charge as the Deputy Secretary for Training and Education at Washington, D. C., and consequently relieved from her job of a security risk.

In view of the foregoing this Bureau does not contemplate interviewing the subject until a final determination of her status is made by the Army.

NOTE ON XEROX:

Subject, now on maternity leave, was sent at New York Quarter Master's Marketing Center, New York City. Loyalty board of Army considered her security risk. Army advised that she is subject of return to duty before her maternity leave expires. Bureau is to be kept advised of any further information received from the Army.

In connection with the Attorney General's decision to discontinue the general review of all Security Index cases, I advised the Attorney General in my memorandum dated October 15, 1953, that I believed the Department should continue to review a limited number of special types of cases, including the cases on 34 specifically named individuals considered prominent in the business and professional fields.

With respect to the 34 prominent individuals, the Attorney General advised in his memorandum dated November 17, 1953, that he was asking the Criminal Division to review the cases of those individuals to determine if their names should be added to the Security Index.

I want to again urge that all 34 cases be reviewed and opinions furnished to this Bureau at the earliest possible date as to whether the names should be added to the Security Index.

ONE MY DETENTION PROGRAM APPROVAL

In order that there will be a uniformity in handling Security Index cases approved or to be approved by the Department for inclusion in the Security Index, there are attached proposed instructions for all supervisors in the Espionage and Internal Security Sections.

As you know the Attorney General by memorandum dated November 17, 1953, has limited the number of such cases to be reviewed by the Criminal Division because of budgetary considerations. In addition, he has requested that we advise the Criminal Division whenever a Security Index card previously approved by the Department is cancelled, but that we initiate the cancellation without referral to the Criminal Division for an opinion. Insofar as the cancellation of approved cases is concerned the only difference from past procedure is that we will make the decision to cancel in all cases whereas in the past we have cancelled and advised the Department of the action taken only when (1) the subject dies (2) the subject enters the military services and is outside the scope of the Program or (3) a subject is an alien who permanently departs from the United States or its possessions. In the past in all other cases we have furnished the pertinent facts to the Department and requested an opinion regarding cancellation except in instances where a Security Index subject has been developed as a security informant or there are good possibilities of such development. In such exceptions for security reasons in order that the identity of the informant will not be disclosed we prepared a memorandum for the individual case file setting out the informant status of the individual and recommending that the Security Index card be cancelled without calling the cancellation to the attention of the Department.

ACTION:

If you approve, copies of the attached memorandum addressed to all Supervisors in the Espionage and Internal Security Sections will be prepared and distributed.

FBI FILE 100-353000

This is to advise you that upon the induction into the Armed Services of subjects listed in our Security Index, we delete their names therefrom, since under the limitations placed on the military services at that point assume complete responsibility for such individuals. We advise the appropriate branch of the Armed Services of the locations and subversive activities of each such subject by furnishing them copies of investigative reports.

According to our records, there are 66 individuals now serving in the Armed Services at the time of their entry into military service were designated for detention by the War Relocation Authority of national emergency.

I thought you would like to know the identities of these persons and for that reason I am attaching hereto a list containing their names, broken down according to the military component with which they are connected. Their dates of entry into the services are indicated under the respective names and on the right are noted their current assignments as developed by a recent check of appropriate military records at Washington, D. C., and in the field.

It may be observed that ~~James Earl Ray~~, United States Army, and ~~William F. Rogers~~, United States Navy, have been in military service over an extended period. ~~James Earl Ray~~ enlisted in 1942 and has remained in the service continuously since that time. Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. A. H. Belmont

FROM : Mr. F. J. Baumgardner

118
DATE: February 23, 1954

SUBJECT: SECURITY INDEX SUBJECTS
ENTRANCE THE ARMED FORCES
Bufile 100-300000

DETAILS: *Entry into Detention Program Approved*

The Director has instructed that we advise the Department of the identities of former Security Index subjects now serving in the Armed Forces and point out the fact that the military services have complete responsibility for such personnel.

My memorandum of February 9, 1954, noted that the Identification Division was checking the present status of these subjects and, in view of the lag in the recording of discharges in military records in Washington, D. C., the field was also making appropriate inquiries.

These checks have now been completed and it has been verified that 54 former Security Index subjects are now serving with the Armed Services.

RECOMMENDATION:

Subject to your approval, there is a letter to the Department, listing the 54 former Security Index subjects now in military service, pointing out the responsibility of the Armed Forces for these subjects and noting that we will hereafter advise the Department in individual cases of the entry into the military service of Security Index subjects.
